July 26, 2023

Dear Ms. Show-Hutsona:

I am pleased to inform you that you have been awarded two Rio Salado College scholarships for Fall 2023. The courses, SBS200 Small Business Operations and SBS213 Hiring and Managing Employees, fulfill requirements for your certificate.

Your courses will begin August 28, and we will deliver course materials by Thursday, August 24. If you will be released prior to then or, if for any reason, you no longer wish to take college courses, it is important that you inform us immediately. You can meet with us in person at FPC on Thursdays beginning at 11am or deliver a written message for us to Mr. Resto, FPC Education Coordinator.

Congratulations on your scholarships!

Very best regards,

A handwritten signature in black ink, appearing to read "Dr. Bortner".

Release Plan

I have written a release plan to to express my sincere remorse for my actions which brought me here, and show how I use my time in prison to transform myself in to a better person; committed to avoiding recidivism. I am not proud of what I did, but I am determined to make amends and return to society as a productive, law abiding citizen.

This release plan describes my self-directed pathway to becoming a better person. Together with my Unit Team's guidance, and the accountability partnership with my loved ones, I will remain focused on making this time productive and strengthening relationships with my family and community.

This plan is one that I have been committed to, and will continue to develop and update in order to maintain a self-directed pathway to prepare for the best outcome after my release. The plan includes the following headings:

I. Identifying Information

II. Projections

III. Special Considerations

IV. My Personal Plan

V. Post Conviction Behavior

VI. Transportation and Housing

VII. Medical/Mental Health

VIII. Financial Obligations

IX. Education

X. Risk and needs assessment

Conclusion

I. IDENTIFYIING INFORMATION

Sentenced: *I pled to a sentence guideline off 33-41 months. After a request for a guideline adjustment, was brought to the court's attention, the guidelines were recalculated, and I was sentenced to serve 51 months, on February 28, 2023.*

Surrender Date and Location: *I surrendered to the Federal Prison Camp in Phoenix, Arizona.*

II. PROJECTIONS

The BOP granted me Earned Time Credit at the rate of 10 days per month for the first six months of my sentence, with my participation in Evidence Based Recidivism Programs (EBRR).

Based on my sentence of 51 months, the Good Conduct Time (GTC) I anticipate receiving (15% credit) amounts to roughly 7.65 months of GTC.

USSC 821, Part A, represents that as of November 1, 2023, defendants who have received "status points" for criminal history are subject to a reduction of such status points, as the sentencing guidelines have subsequently been made retroactive, and made effective on February 1, 2024. I qualify for a guideline sentence reduction from 41-51 months to a new range of 33-41 months.

III. SPECIAL CONSIDERATIONS

My judge recommended that I participate in RDAP, which would reduce my sentence by 12 months. Because of the conditions at the BOP, including the removal and convictions of several high-level officials in female facilities, the termination of the RDAP program in other female facilities was imminent. As a result, the program has been postponed, shortened, and no longer available to me within the time to grant the 12 month reduction. I remain very much interested in the behavioral therapy, and have enrolled in the Non-Residential version of RDAP, here on campus. It was explained by the RDAP coordinator, that it is the same exact program module and textbooks, but taught weekly, living in a separate housing unit in the same facility. This will allow my participation in the behavioral module through psychology; but will eliminate the 12 month sentence reduction incentive at the bureau level. Any reduction consideration would need to come from the district court. I will implore the court to carefully consider the current conditions of the BOP, and grant me the 12 month reduction for my participation in the same (non-residential) program.

After the instant offense, but before my arrest, I started a restaurant in 2019. The company grew to include restaurants in two states. At the time of my incarceration, BB Restaurant Group employed roughly 130 people. My daughter has been trying to keep things afloat, but I hear daily of the challenges and issues with employee retention and brand continuity without my presence. Simply put, the company is struggling without my leadership. We have been forced to close one location, and I fear that this trend will progress until I am able to work in the business again. With the ability to return to work via monitored work release, home confinement, or from an RRC, I will be able to sustain jobs in the communities, as well as make a great impact on my debt of restitution to my victim.

The conditions and treatment of inmates at BOP facilities is deplorable. I shall focus on my own plans for reentry to society as a better person, and not go in to grand detail in this plan. There is a list of conditions currently impacting our health and safety (attached). Continuing my sentence in home confinement would allow ankle monitored movement to and from home and work, allowing me to earn and pay my debt, in lieu of

being subject to the myriad of issues in the BOP facility, without an outlet to earn, repay, or seek further therapies. Evidence based programs through U.S. courts and the BOP have proven that sentences served in a home confinement setting are more effective than those served in a prison setting. Home confinement placement under the Second Chance Act, 18 USC 3624(c), are matters to be determined on an individual basis upon consideration of several factors, including "any statement by the court that imposed the sentence..." (See Lovett v. Hogsten, No. 09-5605, 2009 WL 5851205, at *1 (6th Cir., USC 3621(b)).

IV. MY PERSONAL PLAN

There is no excuse for my actions. I realize now that I reacted with anger. Initially, I made excuse after excuse for my actions. I realize now that this has gotten me nowhere in life, and I need to make critical changes to be the person I know I am sometimes- ALL the time. I have no one to blame but myself.

Prior to my incarceration, I operated a successful business. I lived a law abiding life in the five years between this offense and my incarceration. I mentored my management teams, and employees to follow regular compliance as well as ethical practices. I led with a good example in raising my children. But I was always waiting... wondering if this investigation would pop up. In a sense, I feel freed of that feeling, and have continued on the path of redemption. To ensure personal growth and prevent future mistakes, I have developed a release plan. In it, I work the steps I'm taking, and with the people holding me accountable for making these changes. I will return to my community better than when I left it- committed to avoiding recidivism. I will use this plan to help others avoid the same mistakes I made, by creating healthy lifestyle habits.

V. POST CONVICTION BEHAVIOR

After this conviction, I continued to run my business, working every day while on pre-trial release. Once incarcerated, I met with the facility Unit Team at FPC Phoenix to work together on my plan to become a better person, and allow them to guide me through this time with recommendations for my own personal growth. Throughout this process, I have become passionate about not only personal reform, but prison reform as well. While serving my sentence, I have been tutoring, teaching, and offer guidance in a way the camp unit team deems appropriate. Through these community-building efforts, I work toward improving the culture that confines me. I am teaching classes in the following courses:

Life Skills (release plans, resumes, goals/habits. difficult explanations interviewing techniques .

Creative Writing

(memorializing your journey through expression)

Restaurant Operations

(food handling, FOH/BOH, compliance and safety, P&L) As of now, I have completed the following programs offered at the camp:

- **Financial Literacy**
- **Drug Education/Criminal Behavior**
- **Connecting with Families**
- **Camp Tutor Training**
- **Creative Writing**
- **Card Making**
- **Aging Well**
- **Talking with your Doctor**
- **Public Speaking**
- **Trauma in Life/DBT**
- **Women Giving Back (Victim Impact Awareness)**
- **Foundations**
- **Square One**
- **Non-Residential RDAP (enrolled)**
- **Various Recreation classes**

I am currently enrolled in Arizona State University continued education programs, and have completed the following courses:

- SBS200 Small Business Operations and
- SBS213 Hiring and Managing Employees

In April, 2023, I helped to serve at the prison's volunteer appreciation luncheon, where the FCI and camp host an appreciation day for volunteers who devote time and effort to benefit the community and the prison population.

In May 2023, I volunteered to assist with the Children's Day program, preparing activities and set up for children to visit on Mother's Day weekend.

In September 2023, I was accepted and relocated on campus to a new pilot program through the Bureau of Prisons called the GROW program (Getting Ready for the Outside World), an honor unit, in which the requirements are to lead by example and mentor others, following facility and BOP guidelines without exception, have clear conduct, and the ability to positively influence other inmates.

In November and December of 2023, I led the AngelTree effort for the women's camp and men's FCI in Phoenix by setting up the tree and allocating the children's gift tags, promoting giving for children of incarcerated parents. I returned to the FCI before Christmas to collect the gifts and prepare for delivery, and after Christmas to organize tear down and clean up.

VI. TRANSPORTATION AND HOUSING

My family resides at 10172 E. Cochise Drive in Scottsdale, Arizona. They can assure that I am permitted to live here when the authorities deem it appropriate. This is a low crime residential area where everyone knows each other. My family maintains great relationships with our neighbors, who help and support one another. In this area, I will be supported by those who love me the most, to hold me accountable as I return to a law abiding and productive life. I have maintained close ties with family and friends. Through regular in-person and video visitation with my husband, children, sister, parents-in-law, and friends, I feel the support necessary to prove myself worthy of the dedication they have shown me. I do not own a vehicle, but my husband and daughter will allow me access to their cars. When permitted to do so, I will rely on this source of transportation to meet my employment and family obligations.

VII. MEDICAL AND MENTAL HEALTH ISSUES

My physician and the BOP physicians prescribed me regulars breathing treatments, and an albuterol inhaler for the treatment of an on-going condition affecting my lung capacity from Long Hauler's Covid (LHC) The US probation department identified my physical health elements as a factor that may warrant a non-guideline sentences pursuant to the factors found in 18 USC 3553 (a) (PSR/Page30/Part F/Paragraph 136) I have been on the waitlist for the specialist since 3/2023 there is no treatment for LHC at this facility. I have been participating in mental health programs and counseling. I have not been prescribed any mental health prescriptions.

III. FINANCIAL OBLIGATIONS

A judge ordered me to pay financial damages as part of my sentence. The total amount owed including fines, fees, and restitution amounts to \$1,148,759.28. I have worked with my family and legal counsel to develop a plan to satisfy these obligations. My bail amount of \$15,000 was forfeited and applied to restitution with interest.

In addition to significant payments made directly to the victim (not applied by the court), the payment applied to restitution since my incarceration (3/2023-2/2024) total \$17,555.19.

I am enrolled in the BOP Federal Restitution Program (FRP), and am currently paying (10 X) over and above the restitution payments prescribed. While the obligation is \$25.00 per quarter, I am currently making payments of \$250.00 monthly. My income ranges from \$2.75 to \$24.00 per month while incarcerated, so I am drawing from my commissary account to make payments.

Once transferred to home confinement, my payments will significantly increase with the benefit of full time employment.

IX. EDUCATION

Growing up, my family stressed the importance of education. With their support, I earned my high school diploma, while also working overseas as a model, and helped my parents to provide for our family. I furthered my education at San Jose State University through an international program with Tokyo University, where I became proficient in Japanese.

I am currently enrolled in business and ethics classes through correspondence with Arizona State University while incarcerated, to further my knowledge in the modern business world. I remain dedicated to my continued education, and have earned A grades in both Business operations and Employee Management while incarcerated. I have attached a transcript of the classes and programs completed through this program. While incarcerated, I am leveraging my own opportunities to expand my professional education, as well as leverage the experience I have had to help others grow and learn.

X. RISK AND NEEDS ASSESSMENT

Through staff interviews, programming, and behavioral evaluation in the BOP, I have been deemed a low risk for recidivism, minimum security risk, and out custody classification. These findings are attached. I have maintained clear conduct, with zero infractions or incidents.

CONCLUSION

More than once, I've read the words "progress is impossible without change." I strongly believe in that statement. When I stray from a law-abiding life, I know that my actions are wrong. I have made excuse after excuse to justify my actions, clinging to the good that I have done, and the person I know I can be. I have not only made a commitment to myself and my family, but I found purpose through all my mistakes in life. I see that I can make a difference, and feel important in a more rewarding way than what money can buy. I have made a promise to myself, my family, and communities, that the life change they saw in me will never digress again.

The conditions at the BOP (particularly female facilities) are highly scrutinized by congress. The camps are under staffed, out custody housing, unable to provide safety and security. The programs offered are limited. I have completed every means of rehabilitation. Per the reentry curriculum circulated through out BOP facilities, "Evidence based recidivism reduction (EBRR) programs rolled out through the U.S. courts and The BOP have proven that sentences served in a home confinement setting are more effective than those served in a prison setting.

"As of May 27, 2023, BOP placed 13,204 individuals into home confinement under the [CARES Act.]. Only 22 of those people have been returned to prison for committing a new crime."
